

One Week Left! Submit Your Abstract, Apply Funding Support by 23 Jan 2026 and Meet Our Confirmed Plenary and Distinguished Lecture Speakers

The abstract submission deadline for AOGS2026 is fast approaching!
This is your opportunity to contribute to the premier scientific forum in our field.

Key Deadline Reminder

- **Abstract Submission Deadline:** Friday, 23 January 2026 (23:55 GMT+8)
Submit via MARS, our online portal: <https://meetmatt-svr.net/Account/Login>
Session listing and abstract submission procedure here:
<https://www.asiaoceania.org/AOGS2026/Submit-and-Register-Abstract>
Notifications of acceptance will be sent by end-February.
- **Funding Application Deadline:** Friday, 23 January 2026 (23:55 GMT+8)
Submit via MARS, our online portal: <https://meetmatt-svr.net/Account/Login>
Process and procedure here: <https://www.asiaoceania.org/AOGS2026/Submit-and-Register-Funding-Application>
Notifications of funding decision will be sent by early-March.

Confirmed Plenary & Section Distinguished Lecture Speakers

Join us as we present an outstanding lineup of world-leading experts who will deliver plenary and distinguished lectures across all AOGS sections, representing the very forefront of geosciences.

Confirmed speakers include:

- **Professor Simon Wallis**, The University of Tokyo
“How Hot Are Subduction Zones?—Controls, Consequences, and Why Geologists Care”
- **Professor Fei Chen**, The Hong Kong University of Science and Technology
“Advancing Integrated Modeling, Prediction, and Warning of Extreme Weather and Climate in a Rapidly Urbanizing World”
- **Professor Venkataraman Lakshmi**, University of Virginia
“Progress and Challenges in Hydrology”
- **Professor Bjorn Stevens**, The Max Planck Institute for Meteorology
“Dark matter and its role in the climate system”
- **Professor Shuguang Liu**, Hainan University
“Biological memory: How vegetation responds to climate change”
- **Professor Bellie Sivakumar**, Indian Institute of Technology Bombay
“Complexity, Connectivity, and Scale in Hydrologic Systems: Implications for Modeling and Forecasting”
- **Professor Alan Ziegler**, Kasetsart University
“Transdisciplinarity, Transformation, and Transparency: Opportunities for Integrated Perspectives”
- **Professor Yusuke Uchiyama**, Kobe University
“Mesoscale and Submesoscale Processes: Shaping Coastal Circulation and Ecosystem

Connectivity”

- **Professor Yuming Wang**, University of Science and Technology of China
“Measuring Space Magnetic Fields: A Key to Understanding Planets”
- **Professor Kanako Seki**, The University of Tokyo
“Effects of solar activities on atmospheric escape from terrestrial planets: Insights into their habitability”
- **Professor Nobuo Geshi**, Kyushu University
“The large-scale caldera forming eruptions in Kyushu”

Additional high-profile speakers will be announced in the coming weeks – stay tuned!
